

Thank You

West Coast Extreme SPL would like to thank everyone for the help and support. We have had some of members super busy with tracking down info for shows and dealer profiles. Please if you would like to be profiled under the Competitor of the Month please forward the request to: westcoastextremespl@hotmail.com and we will send you out a copy of the questions for you and your friends. Simply fill it out, return it to us and we will use it for future newsletters. Dealers wishing to be profiled can also email us and one of our members will make sure that you are contacted.

Got a show or event to advertise? We greatly appreciate any event info and will proudly display it if you need. Please email in any info and we will make sure that it gets out.

Tip of the Month

This month's tip comes from none other than a legend of SPL....**Alma Gates**

Alma says: You know, so often we do just what I have been doing these last few months. We sit on our hands and wait for things to happen. We all control our own destiny - so my advice is get out there, have fun, and work to make a change. Hey, you never know if you don't try...

Thank you Alma and stay tuned for the next Tip of the Month from one of the many Legends of SPL out there.

Product of the Month

Exide Select Orbital XCD

The amazing new 34XCD battery provides unparalleled deep cycle power for the most demanding automotive applications. High performance audio vehicles often have one starting battery and one or more deep cycle batteries for energy hungry audio amplifiers, CDs, DVDs, Screens and game players. The state of the art technology in the XCD is also ideal for SUVs with winches, hydraulic pumps and other power-hungry accessories.

Exide Select Orbital

The toughest. The best. Exide's revolutionary Orbital Grid Technology takes batteries to a whole new level. By using tightly wound cylindrical cells, they've created a virtually indestructible starting battery that retains its capacity, is maintenance free, and will never leak acid. The exceptionally durable and reliable Exide Orbital is the perfect choice for your most demanding vehicles.

More and more competitors are switching to Exide Batteries for its reliability and it tried, tested, true performance needed in the world of car audio. For more info check out the site at www.exide.com

Dealer of the month

George's Cellular Sound Security
Murray, Mike Steve, Dustin and Steven, along with Justin the installer welcome you to George's.

They offer MB Quart, JL Audio, Bazooka, Clarion and Eclipse for car audio and Compustar for security. George's offers quality installations, custom fiberglass fabrication and complete SQ and SPL installs.

Justin himself competes in SPL with his Little Red Monster Firefly. He has been seen tearing it up as far away as Vancouver and Calgary with his beast. George's is currently putting together a complete custom fiberglass installation in a Toyota Echo and will make its debut for this season's competitions. George's is holding a show April 30th at the store. For more info email them at gcss@shaw.ca

George's Cellular Sound Security

431 West Victoria Street
Kamloops, BC

Fax: 250-372-1113

Competitor of the month

This month, **West Coast Extreme SPL** is proud to announce one of its own. **Tyler Bidnyk**. Bidnyk has appeared at shows near and far and has made a significant rebuild of his system during this past off season. I could find him at every show sleeping in his car waiting for the doors to open. I had a chance to ask him a few questions while on the surf off the coast of Australia.

WCES: When did you start competing
BIDNYK: In 2004 I began to compete SPL in Super Street 1-2(Db Drag) & Advanced 1-2(Idbl)

WCES: What was your first system you competed with? What scores did you hit?
BIDNYK: Alpine h/u, two Concept 1200w amps, and one RE XXX 18" sub. Old scores: 143.7 new TL 148.9 AC I'd like to hit higher 40's this season

WCES: Did anyone help you when you started, any shout outs?
BIDNYK: I designed everything myself, but got tons of great advice from Pat R. and Rob VO

WCES: Are you affiliated with anyone, any sponsorship?
BIDNYK: Thanks mom

WCES: What car do you drive now? What car do you compete with now?
BIDNYK: I drive and compete with my pimped out 1993 Asuna Sunfire. Iz tight yo. I be rollin' on 14's and got da original paint and upholstery. For real dough. P-sout houses

WCES: Who is your SPL idol, someone that you respect, or want to emulate?
BIDNYK: I haven't been around to know many people, but I look up to the guys with the extreme vehicles. Lots of respect for SQ guys and their amazing fabrication work

WCES: What is next for you? Where are you headed?
BIDNYK: I want to attend more shows and keep getting' louder

WCES: What would you create if you had unlimited funds sponsorship?
BIDNYK: A wicked show car. Where there are functioning subs in the rims

WCES: What are your favorite woofers, amps, etc?
BIDNYK: I love RE & DD. Alpine, AVI, and MTX got me into the sport

WCES: Who is your favorite competitor out there now?
BIDNYK: Alma Gates is sweet because she's simply a loud old lady!

WCES: How many awards have you won? Approx
BIDNYK: I won a couple trophies. I've only been to 3 shows

WCES: Which one is your favorite?
BIDNYK: The biggest one of course!

WCES: Who do you want to thank?
BIDNYK: I'd like to thank Dallas Wilson for showing me a sub isn't only a sandwich. My mom and dad for telling me not to buy a system, you guys really made me more determined. Thanks to Pat R and the guys on Termpro & CCA for giving me tips and advice. Without them I wouldn't know anything about mobile audio.
