

Tip of the Month

This month's SPL tip comes from **Moe Sabourin**, Iasca's Canadian Zone Director. Not only has he held the world record in Iasca but he is also the Head Judge for Iasca.

This is what **Moe Sab** says:

Like I've said before, don't let the number rule whether you compete or not. Especially now, with the Idbl points championship and everything else that will be going on in 2005. Getting your car into the lanes and gaining experience and exposure is the key factor for this year. Enjoy the experience.

Stay tuned for next months tip from another Legend of SPL.

Dealer of the Month

F/X Audio, home of Team FX and Team FX2, has two locations to serve you better, a store in Spruce Grove and one in Edmonton. Their 7 installers and sales can hook you up with the latest gear and get you on your way to car audio bliss.

F/X Audio carries lines like Alpine, Pioneer, JL Audio, Diamond Audio, Crossfire, Zapco, Digital Designs. For security they have Astrostart, Clifford, Compustar, Extreme and all assortments of video and interconnects. F/X Audio does high quality SQ, Demo Cars, SPL installs and a side of Marine installs. They do everything under the sun. Way Choy (Wat Choy as PASMAG liked to call him) competes in Db Drag events on behalf of the store. He will be profiled on a future newsletter so watch out for it.

F/X Audio will put on a minimum of three shows this year (with the exception of the triple, all shows will be free to enter, woohoo). F/X Audio is a proud member of Db Drag Racing, and will make all their shows sanctioned. They will also host a few Usaci SQ events.

F/X Audio would like to thank their patrons for their loyalty and support, Staff for their excellent job well done, and loved ones and friends for the understanding of the hard work that FX Audio has done over the past seasons. F/X Audio would also like to thank the newsletter's readership for reading this.

F/X Audio
Bay#4, 120 St. Matthews Avenue
Spruce Grove, Alberta

Product of the Month

Exide Golf Car Batteries E-3600(6V) and E-4800(8V)

All Day Power. Exide's Golf Car Battery line delivers the deep-cycle power you need to operate golf cars, scooters, wheelchairs, warehouse equipment and industrial floor scrubbers and most of all SPL Monsters, all day long. Exide Batteries are durable and vibration-resistant, which increases their reliability and longevity. With continual improvements in cycle life, you can count on Exide Batteries to get the job done.

These batteries come in 6 volt and 8 volt and can be combined to make any combination of 6 volt, 8 volt, 12 volt, 14 volt, 16 volt, and 18 volt. Simply pair any up and get the voltage required for SPL and daily driving. The E-3600 and E-4800 are perfect for SPL vehicles and extreme car audio applications

Competitor of the Month

WCES: What are your names?
RIPROCK: Mike Regner and Mark Regner. Team Riprock

WCES: When did you start competing?
RIPROCK: We started in 2000 but really started to hard core compete in 2001 in super street 1-2 in Db Drag

WCES: What was your first system you competed with?
RIPROCK: Our best SPL was a 161.8 with 2-15's, 9515's in a wall, in an 89 civic with 4 - Concept 2002's, about 1000rms each on the old mics!! Lol, A 200 amp alternator with external voltage regulator and rectifier, 8 - Red Top Optima with 8-2 volt cells.
We did a 161.8 on the old mics and now our best is a 168.3 on the new sensors. But more to come later, more or less at the triple point coming up!!!

WCES: Any shout outs to anyone that helped you out when you started?
RIPROCK: FX Audio and Inhuman Audio

WCES: Are you affiliated or sponsored by anyone
RIPROCK: No, we aren't but hopefully this year should be different!! We pray!!

WCES: What car do you drive/compete with now?
RIPROCK: The daily driver is a 2000 Honda civic coupe SIR, body kit and all (rice), and the tow vehicle is a 2002 Denali quadra steer extended cab short box, and the weekend summer car is a 1970 mach1 fastback, 428 horse and 413 lbs. @. The new vehicle has yet to make a showing, work in progress!!!

WCES: What is your highest score ever? What score are you shooting for?
RIPROCK: That is a 169db's on the sensors in the pits finals, but hoping to hit a 170 or higher. 170+db's on the sensors!!!!!! Soon we promise!! ©

WCES: What would you create if you had unlimited sponsorship?
RIPROCK: Extreme 5 plus!!!!!!

WCES: What do you compete with now?
RIPROCK: Right now we compete with 2 - RE MT's and 4 - VR4000D's by Crossfire. But 2 amps just to start then we hook up the other 2 up at the end of the season

WCES: What are your favorite products?
RIPROCK: For now RE MT's for subs, and amps anything with big power!! Doesn't matter what the brand name is, as long as it puts out what it says!!

WCES: Who is your favorite competitor?
RIPROCK: I guess anyone who has good work ethic, like always working, building and improving to hit a higher number. Like we do, twenty four-seven!!!!

WCES: Are you going to finals this year?
RIPROCK: For sure, the goal every year. Db Drag all the way!!

WCES: Out of all the awards you've won, which one is your favorite?
RIPROCK: Ummmmm... in 2002 at the last double when we took out Team Hertz Canada, man did that feel good. But we won't get into that now. The trophies that we won at world finals a 5th place and a 4th place

WCES: What is your biggest barrier as far as competing?
RIPROCK: Always money, along with Visa and Mastercard!!! Need more limit!!!!

WCES: Who do you want to thank?
RIPROCK: Shout outs to in no order, F/X audio for all there help along the way in all the years, Inhuman Audio for helping us out in many years too, Rob and Nicole Ozust or all the supplies the put into our vehicles from the first extreme install to the present, Andy Lamb (Team Riprock 2!!!!!!) for the help on the new ride, Rob V.O for the help lifting the roof up with us in the new ride along with his partner the 2 ton jack!!! Uzzio, superstany, dum dum, and can't forget our parents!!!!!!

Shows

This month West Coast Extreme SPL has had a surplus of shows. So many that we have posted all our shows on our second page. Please feel free to contact us for any shows info:
