## Product of the Month

Digital Designs is one of the leading SPL manufacturers. So what does a 6000watt DD9900c woofer want to have as power? Why a pair of Digital Designs monster amps of course.

### Digital Designs Z1 Amplifier:

Measuring an incredible 2 feet long and 1 foot tall, this is one big amplifier. The DDZ1 is a class-D amplifier that puts a guaranteed 3000W+ at 12 Volt @ 1 ohm and much more at 14.4V. Independent tests have shown it to put in excess of 4000W at 12V. The DDZ1 is also strappable to another DDZ1

to offer the consumers incredible amounts of power while being easy on the pocketbook. This is the king of amps in 12-15 Volts operation.

## Competitor of the Month

This month we salute a true professional. James Mac Gillivray. James is the head installer at Bradley's Entertainment in Nova Scotia. I know what you're thinking. He's the farthest from west coast as you can get. But he has competed, hosted shows, installs and runs a club for Atlantic Canada. He invests time to make sure that there are shows happening in his area

**WCES:** When did you start competing?

**JMG:** I really just started competing last year in Stock in Db Drags with 2 - ZR12D2 Phoenix Gold woofers and 1 Xenon 400 watt Phoenix Gold amp (X200.2)

**WCES:** What scores do you hit?

**JMG:** I started at 138.5 but moved into 141 at the first show. Now I'm hitting 145.3

**WCES:** Are you affiliated with anyone?

**JMG:** I am an installer at Bradley's Entertainment in Cape Breton, www.bradsircuitycity.com

**WCES:** What do you compete with now?

**JMG:** I am currently running 1 - 1200 watt Xenon amplifier and 2 - ZR12D2 Phoenix Gold woofers in a ported box, with a Optima battery, connected with PG wiring and accessories and Clarion DXZ855MP

**WCES:** What car is your daily diver?

**JMG:** I drive a 98 Intrepid with 1 – 10 ZR10 in a band pass box with Focal 165K2P up front with an Audison SRX3 for power.

**WCES:** Who is your SPL idol or someone that you respect?

**JMG:** I would have to say If I needed an answer, Pat at WCES would be the one I would turn to

**WCES:** What is next for you?

**JMG:** I am heading the Atlantic lasca Circuit. It's tough but I am hoping for the best and investing time to make shows happen!

**WCES:** What would you create with unlimited funds?

**JMG:** the largest spl machine in Canada with 10 – 15's with 20 amps, 100 batteries, etc.

**WCES:** What is your favorite product?

**JMG:** I like PG woofers; they go low. But I'd like to try their T112delite with the MOESUB. I like old school amps that you used to be able to cap and coil every thing.

**WCES:** Who is your favorite competitor?

**JMG:** I'm not sure but Kyle from Creative Audio is darn loud and my goal is to beat him.

**WCES:** What is your biggest barrier?

**JMG:** not being exposed to a larger area or bigger shows and larger events. I'm stuck way out here and I need big show experience

**WCES:** Who do you want to thank?

**JMG:** I want to thank Pat at WCES, he has been a great help to my business and has helped me become much more knowledgeable about car audio. It's great working with ya!! Brad the Boss cause allows me to invest time into spl and be creative without ever questioning me.
